

Level	Intermediate to advanced
Type	Individual
Topic	Nature Video
Points	100 points
Media	Demonstrating Camera technique and creativity
Objective	Students will demonstrate camera technique and creativity by making a one minute video of elements of nature.
Directions	Students will develop a video collage of elements of nature. Your video should select a theme and carry out that theme as you demonstrate creativity in shots, locations and style of editing. You might select water, and then film shots from rain to a waterfall. Sound would be an important element in conveying nature, you may wish to lay in a musical sound track or use the sounds of nature, ala CBS Sunday Morning. You may also select a season of the year and feature that season or the changing of the season. Try using www.stockfootageforfree.com you can register with the site and download stock footage of nature to insert into your iMovie.
Format	DVD
